

# Project Planning Phase

|               |                                      |
|---------------|--------------------------------------|
| Date          | 27 October 2022                      |
| Team ID       | PNT2022TMID12448                     |
| Project Name  | Personal Expense Tracker Application |
| Maximum Marks | 8 Marks                              |

Product Backlog, Sprint Schedule, and Estimation (4 Marks)

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task   | Story Points | Priority | Team Members |
|----------|-------------------------------|-------------------|---|--------------|----------|--------------|
| Sprint 1 | Registration                  | USN-1             | As a user, I can register for the application by entering my email, password, and confirming my password. | 2            | High     | Aiswarya S   |
|          |                               | USN-2             | As a user, I will receive confirmation email once I have registered for the application                   | 2            | High     | Danujaa R    |
|          | Login                         | USN-3             | As a user, I can log into the application by entering email & password                                    | 1            | High     | Sharmitha S  |

|   |                       |       |   |   |        |              |
|---|-----------------------|-------|---|---|--------|--------------|
|   | Dashboard             | USN-4 | Logging in takes to the dashboard for the logged user.                | 1 | High   | Sneha Ganesh |
| Bug fixes, routine checks and improvisation by everyone in the team *Intended bugs only |                       |       |   |   |        |              |
| Sprint 2  | Workspace             | USN-1 | Workspace for personal expense tracking                               | 2 | High   | Danujaa R    |
|   | Charts                | USN-2 | Creating various graphs and statistics of customer's data             | 1 | Medium | Sharmitha S  |
|   | Connecting to IBM DB2 | USN-3 | Linking database with dashboard                                       | 2 | High   | Sneha Ganesh |
|   |                       | USN-4 | Making dashboard interactive with JS                                  | 2 | High   | Aiswarya S   |
| Sprint-3  |                       | USN-1 | Wrapping up the server side works of frontend                         | 1 | Medium | Sharmitha S  |
|   | Watson Assistant      | USN-2 | Creating Chatbot for expense tracking and for clarifying user's query | 1 | Medium | Sneha Ganesh |
|   | SendGrid              | USN-3 | Using SendGrid to send mail to the user about their expenses          | 1 | Low    | Aiswarya S   |
|   |                       | USN-4 | Integrating both frontend and backend                                 | 2 | High   | Danujaa R    |

Bug fixes, routine checks and improvisation by everyone in the team \*Intended bugs only

|          |                |       |  |   |      |              |
|----------|----------------|-------|--|---|------|--------------|
| Sprint-4 | Docker         | USN-1 | Creating image of website using docker/                      | 2 | High | Sneha Ganesh |
|          | Cloud Registry | USN-2 | Uploading docker image to IBM Cloud registry                 | 2 | High | Aiswarya S   |
|          | Kubernetes     | USN-3 | Create container using the docker image and hosting the site | 2 | High | Danujaa R    |
|          | Exposing       | USN-4 | Exposing IP/Ports for the site                               | 2 | High | Sharmitha S  |
